

Time of post-order traversal per size of BST, in average case (experimental)

Time of post-order traversal per size of BST, in average case (experimental) -
trendline as theoretical $O(n)$ time complexity

Time of post-order traversal per size of BST, in best case (experimental) -
trendline as theoretical $O(n)$ time complexity

Time of post-order traversal per size of BST, in worst case (experimental) -
trendline as theoretical $O(n)$ time complexity
